**Credits
required for
graduation
from the
Department**

233 Credits

Note

1. Students in this department who have not completed and passed all required courses up to and including the first semester of their fourth year are not permitted to enroll in Western Medicine Clerkship (II) and Chinese Medicine Internship.
2. Western Medicine Clerkship (I) is conducted during the summer vacation between the third and fourth years. Western Medicine Clerkship (II) is conducted in the second semester of the fourth year. Each month of clerkship/internship is worth 4 credits. For durations less than a month, credit is calculated weekly, with 5 days per week and 8 hours per day equating to 1 credit per week.
3. The graduation elective credits for this department include 6 credits for specialized courses in Chinese Medicine and Pharmaceutical Engineering and Biotechnology, and an additional 7 elective credits.
4. Other elective credits do not recognize elective courses from other departments as graduation elective credits. However, students can freely choose courses from the "Independent Learning" courses offered by the College of Medicine or elective courses offered by the department. A maximum of 1 credit from "Independent Learning" courses will be recognized.
